

# George Boholteanu

## Junior Software Developer

I am an aspiring junior software developer, fresh out of an intensive 18 weeks coding bootcamp and looking to build on my previous work experience in architectural visualization

London, UK

### EXPERIENCE

#### I. Software Developer

##### EDX Trilogy Front End Web Development Bootcamp

November 2022 - March 2023

- Working through almost 800 hours of bootcamp structure, assignments and projects I successfully familiarized with Github, Gitlab, HTML, CSS, Bootstrap, Javascript, JQuery, React and Node JS technologies
- Completed a series of *assignments* in order to build small projects. Some of the more significant ones are
  - **Personal Portfolio** - using HTML, CSS, Bootstrap and media queries
  - **Quiz app** - with multiple Q&A using dynamic html injection through Javascript
  - **Daily Planner** - using JQuery and saving relevant data on client local storage
  - **Weather Dashboard** - 5 days weather forecast based on user search and using *Openweather API and Moment JS*
  - **Readme Generator** - generate a standard project readme using *Node JS* and *Iquirer package* to collect user input
- Developed a series of *larger projects*
  - **Trivia App** - based on Millionaire Trivia I developed an app that is desktop and mobile friendly and is fetching Q&A dynamically through [trivia API](#) and saving top scores on local storage. It also uses [GIF API](#) to provide an image hint as a lifeline based on the correct answer. Technologies used: HTML, CSS, Bootstrap, JS, JQuery

### PROFESSIONAL SKILLS

Pragmatic  
Team worker  
Proactive  
Excellent communication  
Responsible  
Creative  
Self motivated

### TECHNICAL SKILLS

HTML  
CSS  
Python  
Javascript  
jQuery  
Bootstrap  
React  
Git  
3D Studio Max  
Adobe Suite

## Self Development

March 2020 - November 2022

- Self-learned **Python** following online courses and Youtube Education Series to build a stand alone app and small utilitarian scripts to automate repetitive tasks. I also web scraped Premier League match results and created an animated data visualization with interactive standings based on each match result.
- Self-learned **Maxscript** and built UI tools exposing custom commands and creating new tools for **3D Studio Max** users

### II. Architectural Visualizer

**Freelancer**, London, UK

#### **Lead Visualizer**

February 2020 - Present

- Running private jobs in collaboration with *HENLEY Real Estates Investments* and *WESTWAY Architects* delivering full marketing CGIs for office spaces, eco community buildings or mixed use ones.

**Allford Hall Monaghan Morris**, London, UK

#### **Architectural Visualizer**

April 2017 - Present

- Successfully delivering a wide range of CGIs from masterplans, mixed-use buildings, laboratories, residential or private villas and managing the entire creative process from concept to completion.
- Successfully coached younger visualizers, guiding, and teaching them visualization tips or best practices for different types of architectural projects.
- Developed great graphical skills while perfecting technical skills in Adobe Suite, especially Photoshop on editing images, post producing CGIs or sketching ideas.

**Foster and Partners**, London, UK

#### **3D Artist**

September 2014 - April 2017

- Collaborating with senior visualizers to deliver outstanding artworks for high profile clients worldwide.
- Some of the projects include Mexico Airport, One Hundred East 53rd Street Tower, Cheval Blanc private villas, Ocean Terminal extension, The Murray Hotel and diverse APPLE stores located in New York, Chicago, Dubai, Singapore or London

## **EDUCATION**

### **EDX Trilogy Front End Web Development Bootcamp**

March 2023

London, UK

### **SOLOLEARN**

Python for Data Science Course

December 2021

Python Intermediate Course  
December 2021

SQL Course  
November 2021

### **University of Architecture**

Master in Architectural Design

July 2014

Bucharest, Romania

## **INTERESTS**

Technology

Sports

Self Development

## **OTHER**

Weekly playing on football league

Volunteer for St. Luke Community Center

Participated to CG Record Visualization Competition
